INJECTION MOULDED CASES - PELI LIMITED LIFETIME* GUARANTEE

Peli Products, S.L.U. ("Peli") guarantees its injection moulded products for a lifetime* against breakage or defects in workmanship. Peli™ injection moulded cases are guaranteed to be watertight to a depth of 3.3 feet (1 meter) for 30 minutes (IP 67) if properly closed with undamaged o-ring in place unless otherwise stated. To the extent permitted by law, Peli's liability is limited to the case and not its contents or foam. All warranty claims of any nature are barred if the case has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident.

For complete warranty details, see www.peli.com/warranty

* Lifetime Guarantee not applicable where prohibited by law.

FEATURES

+ THE SCIENCE BEHIND STRENGTH AND LIGHTNESS

The Pelican™ Air case has been designed to cut weight without compromising durability.

Our engineers have revolutionised the protector case by reducing structural waste while preserving Pelican's legendary standards of strength. In development for years, the design team challenged the status quo to "add lightness" in every detail.

Here are some important reasons why Pelican™ Air cases are both strong and light:

- Moulded from the next generation of Pelican's lightweight HPX™ resin, a proprietary formula that rebounds without breaking
- Honeycomb structural elements that are actually stronger than solid polymer material
- Super-stiff "full box" sections engineered to create hollow parts

+ EXTREME ENGINEERING-UP TO 40% LIGHTER

Pelican™ Air	Weight NF (kg)	Pelican Equivalent	Weight NF (kg)	% var.
1485	2.1	1500	2.9	-26%
1525	2.7	1520	3.8	-28%
1535	3.9	1510	5.4	-28%
1555	3.3	1550	4.8	-35%
1605	4.2	1600	5.9	-33%
1615	6.4	1670	10.4	-40%

* Case weights are actual and percentage variance is adjusted for interior volume.

+ UP TO THE TEST

It wouldn't be a Pelican™ case if you couldn't drop it, kick it and run over it – and the Pelican™ Air case is no different.

- Drop-tested on concrete with loads from 1,8 m on all sides and corners
- Submerged for 30 minutes at a depth of one meter
- Wheels are roll tested over 1 km with loads at 8 km/h
- 12,7 kg steel dart dropped on all sides from 1 m

+ SHARED FEATURES ACROSS ALL MODELS

PELI™ AIR

Meet the lightest premium Protector™ case on the planet. Up to 40% lighter* than other polymer cases. Peli™ Air cases are the first in a series of remarkable innovations engineered by Peli, the pioneers of protective cases. For over 40 years Peli has designed and crafted the most influential protective cases in the world, and we're just getting started. With the launch of the Peli™ Air line of cases, we're redefining the future of protection with a remarkable union of light and tough.

+ TRAVEL LIGHT

The world is in a hurry and Peli™ Air cases are setting the pace with two models optimised for travel. We verified the airline rules for maximum overhead and check-in dimensions*, and perfected two cases for pros on the move. Both cases include a rugged extendable handle that keeps the case clear of your heels when walking, and smooth rolling ball bearing wheels that are nice and quiet.

Getting through the airport with a Peli™ Air case is a lot easier, and saves money on over-weight luggage fees, too.

PELI™ AIR PROTECTION SOLUTIONS

Peli™ Air Cases are available empty or with any of the following protection solutions.

+ PREMIUM PROTECTION: PELI+TREKPAK™

The TrekPak™ system uses pre-installed wall sections, divider panels, locking pins and an infallible cutting tool. Just lay your gear in the case, measure and cut the divider sections and lock them in place with the steel U-pins. We include extra divider material so you can change your mind, plus divider panels are also available separately so you can reconfigure your dividers anytime.

+ EFFORTLESS PROTECTION— EASY PICK N PLUCK™

Peli™ Air cases have been designed to protect equipment of all kinds, no matter the size or shape. Most Peli protector cases come with our Pick N Pluck™ shock-absorbent foam, pre-scored in tiny cubes. The item is placed on the foam, outlined with chalk, and then the cubes around the item are removed to form a secure, protective cocoon.

+ NEW DIVIDER SYSTEM

- Full Sewn Tub with Felt Exterior
- Velcro™ Compatible Nylex™ Interior
- Elastic Hold Down Straps
- Hi-Visibility Yellow Interior
- Set Includes: 1 Tub, 2 Large Dividers, 6 Medium Dividers, 3 Small Dividers
